

**REMARKS**

Favorable reconsideration is respectfully requested in view of the foregoing amendments and the following remarks.

In item 5 on page 3 of the Notice, it was indicated that the computer readable form (CRF) of the Sequence Listing (submitted with the response filed September 28, 2007) is damaged and/or unreadable.

In reply, Applicants enclose herewith another copy of the revised substitute Sequence Listing submitted with the response filed September 28, 2007, in both paper and computer readable form (CRF), to replace the Sequence Listing of record. Amendments directing its entry into the specification have been incorporated herein. The content of the paper and computer readable copies are the same and no new matter has been added. The CRF has been run through Checker and no errors were found. A copy of the Notice is attached.

Therefore, the application is in compliance with the sequence rules under 37 C.F.R. § 1.821-1.825.

No new matter has been added.

Favorable action on the merits is requested.

Respectfully submitted,

Mitsuo HONDA et al.
